

UNIVERSITY OF STRATHCLYDE SPORTS UNION

HEALTH & SAFETY POLICY

Updated by: USSU Sports Executive Committee
Date: September 2018

1. General Statement

Running a club safely is vital to protect students and the public implicated in student sport activity at the University of Strathclyde from personal injury and legal proceedings.

The Sports Union, in partnership with Sports Clubs, the Students Association and Strathclyde Sport have a common law 'duty of care' to participants undertaking sporting activity under the auspices of the University of Strathclyde. If this is not implemented, then all or some of the noted parties can be regarded in law as negligent and subsequent legal action can be taken. This Policy acts to ensure that this does not occur.

The intention is not to cause Sports Clubs to constrain their activities but to allow clubs to manage their affairs in such a way as to help minimise any possible liability in the unfortunate event of a student having an accident.

The following USSU Health & Safety Policy is endorsed by the USSU Executive Committee to provide and maintain, as far as is reasonably practicable, a safe and healthy environment for all student sport activities, and to provide information and training for this purpose.
